LANCOOL Daytime Menstrual Pants XL Thiourea Test

English reference translation of the client-requested test

ENGLISH REFERENCE TRANSLATION
Prepared from the original sample report. Use the signed and sealed original for formal verification.

Sample and testing basis

Original issuer	Guangzhou Inspection, Testing and Certification Group Co., Ltd. (GTTC)
Sample	LANCOOL Daytime Women’s Sanitary Pants, XL
Report issued	21 November 2025
Brand and batch	LANCOOL | 20250820
Client	Hunan Nafei Biotechnology Co., Ltd.
Sample received / testing started	9 September 2025 | 4 packs
Method and decision rule	As requested by the client

The whole-sample thiourea result met the client’s criterion. “Not detected” means the concentration was below the stated detection limit. The issuer designates this report for reference only and states that it has no public evidentiary effect.

Test results

Test item	Test method	Requirement	Result	Finding
Thiourea (mg/kg), whole item	CAS 62-56-6; client-requested method	Must not be detected	Not detected (limit 3.0)	Meets

Notes from the source report

This report replaces no. 250258686, which the issuer cancelled. It covers one client-requested analyte on the submitted sample.

Testing used the environmental conditions specified by the relevant methods, except where otherwise stated. The report identifies the test location as No. 1 Zhujiang Road, Panyu District, Guangzhou.

The original report and copies require the relevant authorized stamp. Alteration invalidates the report. Objections to submitted-sample results must be raised within 15 days of receipt.

Results apply solely to the tested sample. GTTC disclaims responsibility for the authenticity of customer-supplied information, including sample details. The original prohibits partial copying without prior written permission.

The source includes two numbered sample-photo pages. This English text edition describes their role and does not reproduce package artwork, seals, signatures or verification codes.
