2. Product Range

- **Disposable Menstrual Pants** — overnight, maternity, cooling series, ultra-thin. All-in-one pull-up protection.
- **Sanitary Napkins** — ultra-thin to maxi with optional anion chip and breathable topsheet.
- **Period Underwear (Disposable)** — light-day and backup absorbent underwear.
- **Custom Packaging** — printed bags, boxes and inner wraps matched to your brand and material brief.

3. Typical Specifications

Product	Key specs	Common sizes	Surface
Menstrual pants	SAP 0.8–1.4g, 80–150ml	M / L / XL	Soft non-woven, cool-feel opt.
Sanitary napkin	150–420mm, day/night	240/280/320/410mm	Cotton-feel or mesh, anion opt.
Period underwear	Light–moderate, 10–30ml	S / M / L / XL	Breathable knitted

All specs adjustable per brand requirement. MOQ and lead time confirmed at quotation.

4. OEM / ODM Process

1. **Brief & RFQ** — share product type, specs, volume and target market.
2. **Sampling** — prototypes in 7–12 days for your review.
3. **Confirm & tooling** — lock specs, packaging artwork and QC plan.
4. **Mass production** — automated lines with in-line inspection.
5. **QA & docs** — lab test reports and market-specific documents where applicable.
6. **Logistics** — FOB / CIF to your warehouse.

5. Quality & Certifications

Production follows documented process control with dust-controlled workshops and in-line SAP/absorbency checks. We support third-party inspection and provide available test reports or certification documents on request, subject to current scope and validity.

Current quality-system and product documents should be reviewed against the target market, product scope and shipment requirements.
